

**Smart qualification.
Smart jobs.
Smart buildings.**

FINAL CONFERENCE

FROM SMART HOMES TO SMART COMMUNITIES

20th of November 2020

Automation and smart technologies are bursting innovation in the building construction sector, as well as in every other social, cultural, and economic context. Houses, villages, cities are harnessing new smart technologies to improve the quality of life of their users and citizens.

The final conference will provide an opportunity to gather different experts to discuss the policy context, examples of implementation and preparation of workforce for the transition to smart technologies.

The conference is part of the Erasmus+ KA3 project SHVET. SHVET project has developed a joint qualification of the Building Automation Expert.
