

Ecipa fa parte del progetto SHVET!

SHVET è un Erasmus+ che si pone l'obiettivo di contribuire allo sviluppo di un profilo professionale altamente qualificato libero di muoversi in Croazia, Slovenia e Italia contribuendo all'occupazione e riducendo i gap di competenze in aziende del settore elettro/tecnico/edile grazie alla definizione di una qualifica Istruzione e Formazione Tecnica Superiore (IFTS - HVET).

Goals:

-  support the development of highly skilled and mobile workforce
-  closing skills shortages and gaps in the electrotechnical and construction sector
-  deliver a new joint HVET qualification of Expert in building automation
-  support the development and promotion of HVET

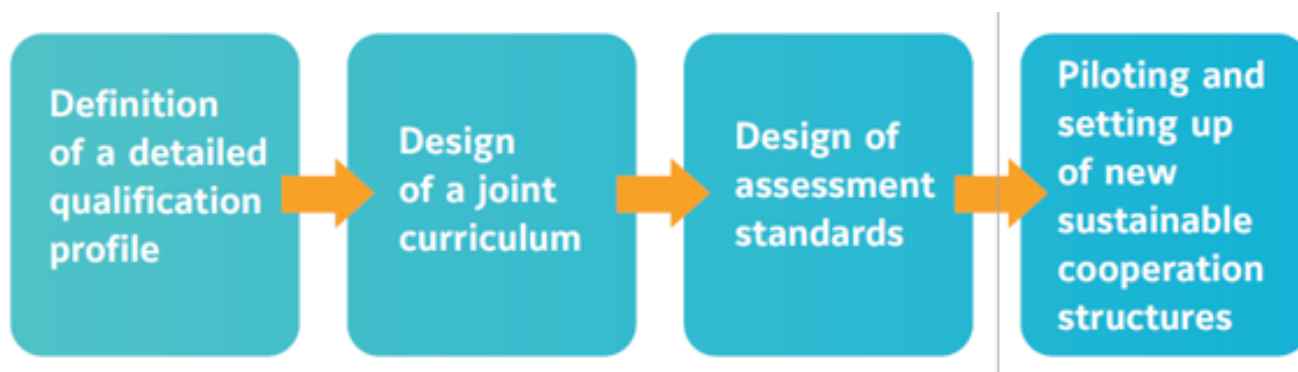

Methodology

The new joint qualification will have its foundations in extensive quantitative and qualitative analysis based on an inclusive process of dialogue and consultation with representatives of HVET, research, employers and policy makers. These

will encompass questionnaires and focus groups of employers and analysis of educational, sectorial and strategic background. Employers will take part in workshop about key tasks of the new qualification. This will ensure that the qualification responds to labour market current and future needs. The new qualification profile will be standardised, offer transparency, reliability and quality assurance.

Recent news

Questionnaire for Employers in order to get feedback about key duties, tasks and skills partners have developed a questionnaire with the goal to obtain feedback from 35 respondents per country.

Next steps

Analysis of questionnaires – partners will analyse all data gathered through the questionnaires and focus groups and sum it up in a report.

3 National Focus Groups with Employers will be organised gathering relevant employers and discussing the skills and knowledge of the Expert in building automation. Additionally, a **joint focus group in Krško**, Slovenia will be organised in March.
